Source: Ministry of Colleges, Universities, Research Excellence and Security

Notes:

1. The tables include both students who are eligible and ineligible for provincial operating funding.

Eligible & Ineligible for Provincial Funding: Refers to the eligibility of a student for operating grants. Students are considered eligible if they are either Canadian citizens, permanent residents, eligible in enrolled at an eligible institution, in a publicly-supported program that is approved after meeting the specific eligibility criteria set by the Ministry of Colleges and Universities.

2. Headcounts - Every student enrolled is counted as one headcount regardless of registration status or course load or level of study. Fall term full-time headcounts (counted on November 1st) are a c

3. Full-time: Students taking more than a certain percentage of full load course work (i.e. threshold). Each institutions has established its own cut-off percentages, for the purposes of determining whe varies in time for one institution. For example, the full-time threshold for University of Toronto was changed from 80% to 60% in 2003-04, resulting in an increase in full-time students (and a decrease McMaster adopted 60% of a full time load as a full time student (previously it was 80%).

4. Undergraduate & Graduate Students - Undergraduate students are enrolled in undergraduate level programs such as undergraduate diplomas and certificates, and bachelor's degrees; graduate stu graduate diplomas and certificates, master's and doctoral.

5. This table is calculated from MCU records. It is different from the Common University Data Ontario (CUDO) published on the COU website for several reasons.

First of all, MCU's categorization of undergraduate and graduate students includes diploma and certificate students whereas CUDO only publishes degree seeking students.

Secondly, CUDO groups bachelor's with first professional degrees, while MCU places some professional degrees under other categories such as undergraduate diplomas and graduate diplomas or deg

Lastly, there is some variance in how universities count their students. For example, TMU University counts collaborative nursing students in CUDO but they are not included in MCU records since TMI Toronto includes theology and post-MD students in CUDO but excludes them in MCU reporting; University of Guelph has an agriculture programs re-categorized as a diploma program rather than a de University include in CUDO non-degree seeking students such as those taking continuing/upgrading post-Bachelor courses but not working towards a second Bachelor's degree or graduate school.

6. Enrolments presented for each university include students enrolled in all affiliates and campuses.

7. The total numbers include Algoma University and Dominican University College. Algoma became a university in 2009-10. Dominican's enrolment has been included with Carleton University.
